Apart from directly commissioning reviews, LT solicits offers to review books -- those listed in this regular feature of ALT News or whichever others you'd like to add on your own understanding of the attribute "typologically relevant". For purposes of book reviewing in LT, what matters is that REVIEWS are done from a distinctively typological angle, whatever angles the books reviewed are done from. Reviewers so intentioned please get in touch.

Drop me a line with bibliographical particulars if you want to make sure your own relevant publications will be included in the next listing. And remind your publisher to send a review copy to:

**LINGUISTIC TYPOLOGY,
Sprachwissenschaft, Universität Konstanz,
78457 Konstanz, Germany.**

Do feel free to offer to review grammars for LT too (again, from a distinctively typological angle). Those grammars we are aware of are listed in GRAMMAR WATCH on the ALT homepage (updated annually). Again, do send particulars of grammars not (yet) listed, published 2000 CE onwards.
