“Na whulna neghuni ulhtus” While our Language is strong!

Honoring our Language Speakers

We want to start thinking of ways to honor our language speakers past, present, and future speaker from our communities. Our sub-themes are on revitalization, preservation and maintenance as many of our speakers are leaving and many are at a place their learning and our young are taking up language classes. This is just one small show of appreciation to honor their efforts to keep our language and culture alive for future generations to enjoy. We thank you for your commitment to the survival of our way of life.

So if you'd like to honor three speakers from your area please email their picture and brief bio of their efforts to be used in a slide show showcasing our Dene Language Speakers from across North America.
