

"Call for Demos of Language Resources (LR), LR Tools and LR-based Software at the Language and Technology Conference 2013"
(www.ltc.amu.edu.pl)

Dear Language Technology Providers,

We are pleased to announce the "Call for Demos of Language Resources (LR), LR Tools and LR-based Software at the LTC 2013". This call is addressed to all Language Technology providers for both business and research purposes. We propose to companies as well as individuals to present their novel or state-of-the-art products in form of demos. We are interested in:

- language technology based products,
- application-scale language engineering tools, and
- language resources for human language technologies.

The above must fit exactly to the LTC fields of interest (cf. the LTC topics as presented at www.ltc.amu.edu.pl)

Zygmunt Vetulani and Hans Uszkoreit
LTC 2013 Co-chairs

Technical conditions:

- * provided by LTC: single standard size table, 1 poster (A0 size, vertical) support, 1 power supply socket,
- * provided by the Presenter: all presentation tools and devices (computers, screens etc. are to be installed by the Presenters (no technical assistance from the LTC Organizers).

Dates:

- * submissions: October 27
- * acceptance notification: within 2 working days after submission
- * registration: November 6
- * duration: as the LTC 2013, i.e. December 7-9, 2013

Place: LTC Exhibition Area

Demo Program Fees: one full LTC participation fee. This fee covers the access to the LTC scientific and social program of one presenter. All other presenters need to pay the full LTC registration fee (no student discounts). Registration and payment of the Demo Program Fees must be completed before November 6.

Submission procedure: through the EasyChair system, as for LTC papers (the demo description should be in form of a pdf document). "DEMO" is a mandatory key word; it should also be used in the title of the presentation.

Acceptance criteria: proposed demos and presentations of resources must strictly match the LTC scope and objectives. Qualification will be based on short demo descriptions (1/2 page). Technical quality, novelty etc. will not be object of evaluation.

Publication: no publication, only a short description up to 1/2 page in the conference docs .

Responsibility: presentations must be conform to the EU regulations concerning presentation safety. The Presenter is the sole responsible for the security of the audience during presentation.

More information: at the LTC 2013 web site <http://www.ltc.amu.edu.pl>.
