

## NEW BOOK INFORMATION

“This excellent, wide-ranging, and often path-breaking collection shows the heuristic strength of crises as an entry point for discourse analysis. [...] Covering many sites and scales of these phenomena, this volume is an indispensable addition to the critical literature on critical discourse analysis.”

## Discourse and Crisis

### Critical perspectives

Edited by Antoon De Rycker and Zuraidah Mohd Don

Taylor’s University, Subang Jaya, Malaysia / University of Malaya, Kuala Lumpur, Malaysia

*Discourse and Crisis: Critical perspectives* brings together an exciting collection of studies into crisis as text and context, as unfolding process and unresolved problem. Crisis is viewed as a complex phenomenon that – in its prevalence, disruptiveness and (appearance of) inevitability – is both socially produced and discursively constituted. The book offers multiple critical perspectives: in-depth linguistically informed analyses of the discourses of power and collaboration implicated in crisis construal and recovery; detailed examination of the critical role that language plays during the crisis life-cycle; and further problematization of the semiotic-material complexity of crisis and its usefulness as an analytical concept. The research focus is on the discursive and interactive mediation of crisis in organizational, political and media texts. The volume contains contributions from across the world, offering a polyphonic overview of ‘discourse and crisis’ research. This impressive volume will be useful to researchers and academics working on the intersection of crisis, language and communication. It is also of interest to practitioners in organizational management, politics and policy, and media.
