

Book Launch

Language as an Ecological Phenomenon: Language, Language, and Place

Monday 10th of November, 15:00-17:00 CET

Online via Zoom

Sign up via event.sdu.dk/onlinebooklaunch

The book launch will present the development of the two books and their respective rationales. Afterwards, select authors and editors provide thematic pitches revolving around the concepts of languaging, corporeality, bioecol-

ogy, and places/spaces. The guiding question is: What do these concepts offer ecolinguistics, both in terms of theory and practice? After the four short sessions, there will be time for a Q&A!
