Translation and Translanguaging

Mike Baynham and Tong King Lee

Series: New Perspectives in Translation and Interpreting Studies
Edited by Michael Cronin

This book is the first to ask, what can translanguaging tell us about translation and what can translation tell us about translanguaging? In exploring these questions through analysis of data, drawn both from everyday life and literary texts, Baynham and Lee show the importance of translation and translanguaging for our general understanding of language and communication. They conclude that translation and translanguaging is a core process in languages and not just a peripheral border phenomenon. This timely book will be essential reading for students and researchers in translation studies, sociolinguistics, applied linguistics and related areas.
