

WEBINAR

Creating High-Quality Learning Opportunities for Multilingual Learners

With AÍDA WALQUI, GEORGE C. BUNCH, PEGGY MUELLER, and MAGALY LAVADENZ

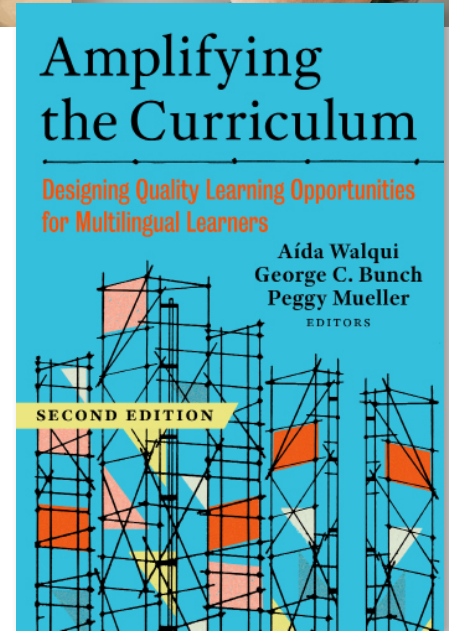

30 OCTOBER
THURSDAY

2PM ET / ONLINE (ZOOM)

Learn how K–12 educators can design high-quality, challenging, and supportive learning opportunities for multilingual learners.

The first edition of *Amplifying the Curriculum* (Teachers College Press, 2019) quickly became a bestseller by offering an ambitious model for educators to design tasks, lessons, and units of study that invite English Learners and other students in need of language and literacy support to engage in meaningful and intellectually engaging learning.

Now expanded and revised to include four entirely new chapters, the **thoroughly updated second edition** brings the model into the present to continue to support K–12 educators in designing high-quality, challenging, and supportive learning opportunities for multilingual learners.

Join editors **Aída Walqui**, **George C. Bunch**, and **Peggy Mueller** for a free webinar that looks at the book's key contributions and explores the central argument that instruction should amplify—rather than simplify—expectations, concepts, texts, and learning tasks. The editors will be joined in conversation by moderator **Magaly Lavadenz**, Co-Director of Bilingual/Bicultural Education in the School of Education at Loyola Marymount University.

This webinar is for teacher educators, elementary and secondary teachers (PK–12), curriculum coordinators, professional developers, school administrators, scholars, researchers, and all others who work with multilingual learners.

ABOUT THE EDITORS

Aída Walqui directs the National Research and Development Center to Improve Education for Secondary English Learners, funded by the Institute of Education Sciences and housed at WestEd, where she started the Quality Teaching for English Learners (QTEL) initiative. George C. Bunch is professor and chair of education at the University of California, Santa Cruz. Peggy Mueller is a lifelong educator, teacher educator, curriculum developer, and education policy analyst.
