

# Project BEST: Bilingual Educators in Science and Technology

The Adelphi University Ruth S. Ammon School of Education invites you to apply for Project BEST, a competitive grant created to prepare qualified bilingual graduate candidates for a fulfilling career in science education.

In a joint partnership with Adelphi University and the school districts of Westbury and Roosevelt, Project BEST is a prestigious and highly selective program, providing candidates with clinically based, hands-on training in support of the national shortage of bilingual science educators. Project BEST offers a wealth of benefits, including the opportunity to earn a master's degree, mentorship from esteemed professionals and a substantial stipend and living allowance.

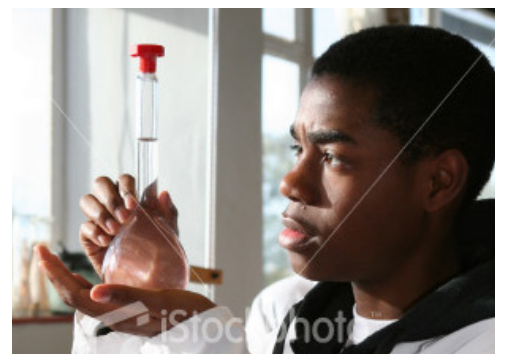

**To find out if you qualify for Project BEST, answer the following questions:**

- Are you bilingual in Spanish or Haitian Creole?
- Are you interested in teaching science at a middle or high school level?
- Are you interested in giving back to a community in need?
- Are you a college graduate with a strong background in science?
- Can you devote one year toward intensive study and a clinically rich training program?
- Will you commit to teaching in a high needs district?

**Project BEST Scholars receive an abundance of benefits:**

- Earn an M.A. in Science Education, with initial New York State certification (grades 7–12) in a science discipline (biology, earth science, physics or chemistry) and a bilingual extension
- Be mentored by highly qualified teachers and University faculty through a one-year, full-time teaching residency
- Complete the first part of your National Board Certification in adolescent science
- Receive a \$10,000 tuition stipend
- Receive a \$30,000 living allowance

**Project BEST commences July 2012. All applications must be submitted by February 1, 2012.**

For more information on how you can benefit from Project BEST and its requirements, visit [education.adelphi.edu](http://education.adelphi.edu).

To speak with someone directly about this highly competitive program, contact Eva M. Roca at **516.877.4072** or [roca2@adelphi.edu](mailto:roca2@adelphi.edu).

*Project BEST is made possible through funding from the New York State Race to the Top.*
