

Petition to White House:

Please reinstate the Spanish links on WhiteHouse.gov

I am a committed supporter of our nation's democracy and its fundamental principles: liberty, equality, and justice for all. Recent actions by the Trump administration threatened those principles, including the elimination – on Inauguration Day in 2017- of links to information in Spanish on the White House webpage, WhiteHouse.gov. On January 22, 2025 the Trump administration again shut down the White House Spanish-language page and social media.

Liberty, equality, and justice FOR ALL require access to important information. Although the majority (72%) of native speakers of Spanish in the U.S. are also proficient English speakers (Pew Report 2021), other administrations have provided links to Spanish versions of written materials, to ensure in-depth understanding of those issues.

I urge you to reinstate the Spanish links on WhiteHouse.gov, so as to confirm that your avowed goal to “make America great” includes the entire nation.
