LIVING TOWARD JUSTICE: A TIME CAPSULE

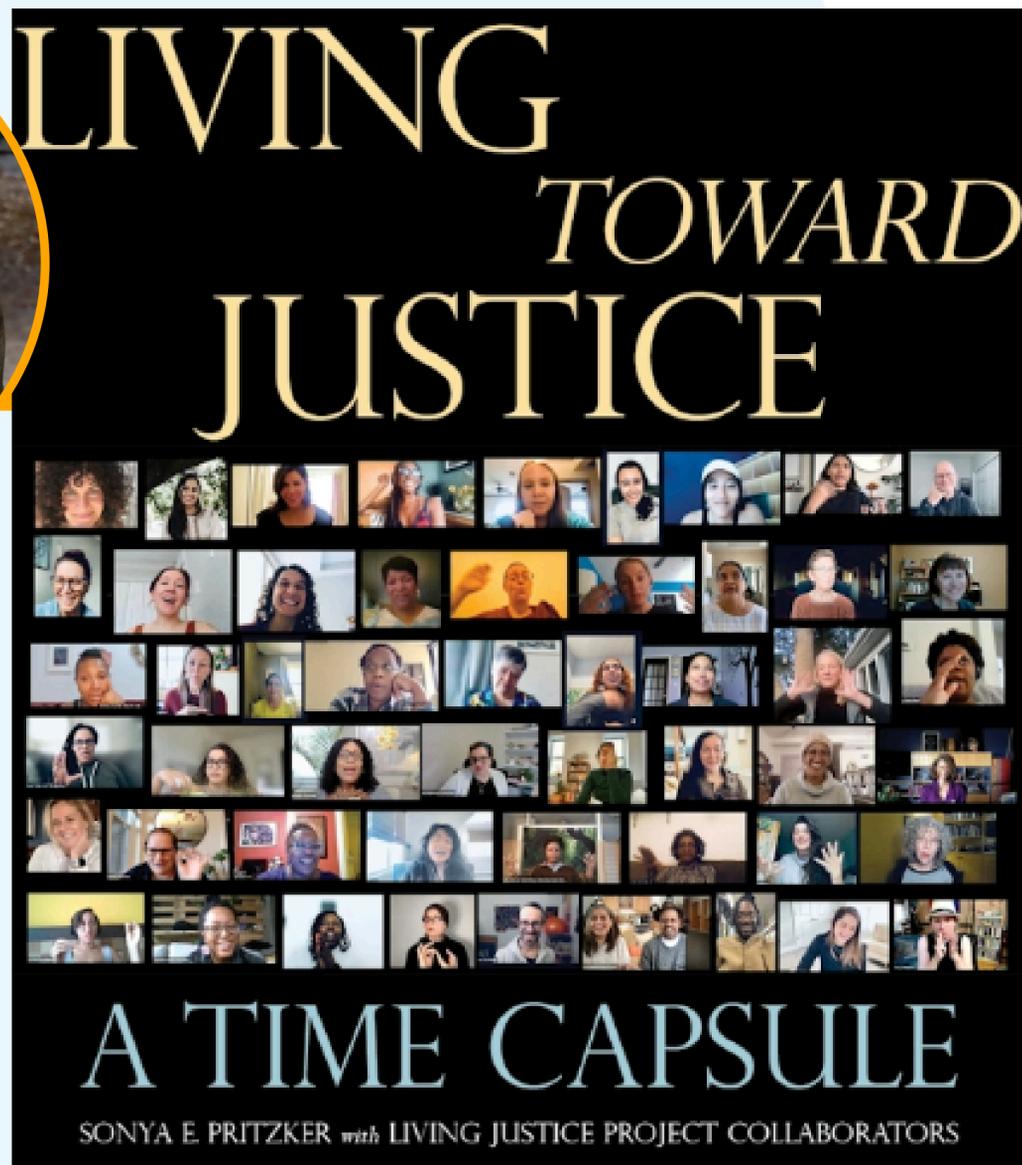

GUEST SPEAKER

**SONYA E.
PRITZKER**

Linguistic and medical anthropologist Sonya E. Pritzker from the University of Alabama will introduce the Living Justice Project (2020-2022). This is a global, collaborative ethnographic research project that documented the everyday experiences of students, teachers, and practitioners working to link healing to social justice. Her discussion will examine the complex links between language and the body in collaborative interpretations of the past, present, and possible future.

There will be signed copies of Living Toward Justice by Pritzker and other project collaborators at a discounted price! Refreshments will also be served!
