AND MANY MORE

We are pleased to invite you to the 24th biennial conference of the International Society for Historical Linguistics. Continuing and expanding a proud tradition, the upcoming ICHL24 will present both renowned and exciting new voices in the many domains of the field, including methods and practices of reconstruction, formal approaches to change, historical sociolinguistics and contact linguistics.

Location

University House

The Australian National University, Canberra,
Australia

While featuring languages from across the world, in the International Year of Indigenous Languages, ICHL24 will highlight the very diverse languages and language families of our region, especially those of Australia, mainland Southeast Asia and New Guinea. With a truly multi-disciplinary focus, the conference will also showcase new advances in computational and phylogenetic approaches to historical linguistics, and new ways of placing the field within trans-disciplinary understandings of the human past.

Over five days, the packed program will include seven concurrent sessions daily, ten intensive workshops, seven plenary presentations, and social activities with a distinctive local flavour. The breadth of workshops during ICHL24 will showcase presenters and facilitators driving forward contemporary historical linguistics, representing a great variety of fields, experiences and career paths. The conference website contains essential information about travelling to Australia, accommodation options in its picturesque capital city, and of course – the social calendar.
