

Call for posters

Theoretical Syntax and (a)typical child language acquisition Workshop in tribute to Celia Jakubowicz

Invited Speakers:

Cornelia Hamman
Luigi Rizzi
Jurgen Weissenborn
Junkal Gutierrez
Leslie Roulet-Amiot
Carla Soares-Jesel
Nelleke Strik

January 30, 2009

A one-day workshop in honor of Celia Jakubowicz will take place on Friday 30 January at the University Paris 8. The workshop is organized by the Laboratoire Structures Formelles du Langage, UMR 7023 CNRS, University Paris 8, the Laboratoire Psychologie de la Perception, UMR 8158 CNRS, University Paris-Descartes, Institut de Psychologie, Centre Biomédical des Saints-Pères and the Laboratoire de Psychologie et Neurosciences Cognitives, UMR 8189 CNRS, University Paris-Descartes, Institut de Psychologie, Boulogne.

Plenary conferences by invited speakers will alternate with talks given by younger scholars who were Ph.D students or close collaborators of Celia Jakubowicz. In addition, a poster session will be organized. Submissions which present research on morphology or syntax in the field of first language acquisition by (a)typical developing children will be considered.

Abstracts submitted must represent original research. Abstracts should be anonymous, clearly titled and no more than 500 words in length. Text of abstract should fit on one page, with a second page for examples, figures, or references. The abstracts should be sent by e-mail as a PDF file to carla.soaresjesel@linguist.jussieu.fr or to rleslie@noos.fr. Join separately a file containing: title, author's name and address, affiliation and e-mail address. Submissions are limited to a maximum of one individual and one joint abstract per author.

Deadline for submissions: the **10th December 2008**

Notice of acceptance will be sent to first authors, by the end of December, by e-mail.

For further information please contact:

Anne Zribi-Hertz (azhertz@orange.fr)
Carla Soares-Jesel (carla.soaresjesel@linguist.jussieu.fr)
Leslie Roulet-Amiot (rleslie@noos.fr)

Organizing Committee:

Laurence Coutière (University Paris 8),

Barbara Hemforth (Laboratoire de Psychologie et Neurosciences Cognitives, UMR 8189 CNRS, University Paris-Descartes, Institut de Psychologie, Boulogne),

Catherine Rigaut (Laboratoire de Psychologie et Neurosciences Cognitives, UMR 8189 CNRS, University Paris-Descartes, Institut de Psychologie, Boulogne),

Leslie Roulet-Amiot (Laboratoire de Psychologie et Neurosciences Cognitives, UMR 8189 CNRS, University Paris-Descartes, Institut de Psychologie, Boulogne and Laboratoire Psychologie de la Perception, UMR 8158 CNRS, University Paris-Descartes, Institut de Psychologie, Centre Biomédical des Saints-Pères),

Juan Segui (Laboratoire de Psychologie et Neurosciences Cognitives, UMR 8189 CNRS, University Paris-Descartes, Institut de Psychologie, Boulogne),

Carla Soares-Jesel (University Paris 7),

Nelleke Strik (University Paris 8),

Laurie Tuller (Inserm U930, University of Tours and UMR Structures Formelles du Langage 7023 CNRS and University of Paris 8),

Sophie Wauquier (UMR Structures Formelles du Langage 7023 CNRS and University Paris 8),

Anne Zribi-Hertz (UMR Structures Formelles du Langage 7023 CNRS and University Paris 8)
