

SignFont Home Page

by Don E. Newkirk

Last Upgrade: 2-24-99

As I promised in Montreal, I am trying to make available the materials I passed out (and ran out of) at my SignFont workshop at TISLR '96. These pages can be viewed properly only with a [SignFont TrueType font](#). Alas, I am still working on developing a Macintosh SignFont font.

The original Microsoft Word for Windows documents are also available below, with the TrueType fonts embedded.

[Click here to view the SignFont Character Charts.](#)

[Click here to view the SignFont ASL/English Glossary.](#)

[Click here to view the SignFont English/ASL Glossary.](#)

[Click here to view two examples of ASL text in SignFont notation.](#)

[Click here to view the "Literal Orthography" that lead eventually to SignFont.](#)

DOWNLOADABLE MATERIALS:

For Microsoft Windows:

[SignFont fonts in ZIP format.](#)

[SignFont fonts in Mac HQX format](#)

[SignFont Workshop handouts in ZIP format:](#) (Microsoft Word 6.0/7.0)

SignFont Character Charts
SignFont Glossaries, English/ASL and ASL/English
ASL Text Examples
(Rhyming poem Unity and SignFont Handbook Preface)

[Outline of a Proposed Orthography for American Sign Language \(1978/1986\)](#)
.....Microsoft Word 6.0/7.0
